Preface

Overview

This publication reflects data collected in the hospital licensure process. A historical accounting of the responsibility for this function began in 1946 when the Mississippi Commission on Hospital Care was legislatively authorized to license non-federal hospitals and prepare an annual report. In 1979 the legislature passed a bill to merge the responsibilities of the Commission on Hospital Care into the Mississippi Health Care Commission and in 1986 another bill was passed to merge the responsibilities into the Mississippi State Department of Health.

In October 2011, the Bureau of Health Facilities Licensure and Certification mailed copies of its combined "Annual Hospital Report and Application for Renewal of Hospital Licensure" and the American Hospital Association's "Annual Survey of Hospitals" to all non-federal hospitals in Mississippi. This survey is the source of statistics for this publication. A copy of the survey form is included in Appendix E. The hospital survey forms were reviewed and automated by the Division of Public Health Statistics. Questions regarding reported data were answered by hospital personnel through letters or telephone calls.

In 1984, for planning purposes, the Statewide Health Coordinating Council (SHCC) established seven hospital service areas based on where patients sought hospital care. For ease in using the data presented in this report some tables are presented by the planning service areas. Map II displays the hospital service Areas.

This Annual Report is based on 111 hospitals; 95 acute care, 4 psychiatric, 1 rehabilitation, 1 OB/GYN, and 10 long-term acute care.

The five federal hospitals in Mississippi have been excluded. Additionally, East Mississippi State Hospital, North Mississippi State Hospital, Oak Circle Center, South Mississippi State Hospital, and Whitfield Medical/Surgical Hospital have been excluded from all data except Table II and Table III. Map I shows location of hospitals by type of facility, Table II shows accreditations and Table III displays employees.

Two hospitals opened during the reporting period, John C Stennis Memorial Hospital. It is a 25 bed critical access hospital located in Kemper County. Allegiance Specialty Hospital of Greenville, a 39 long term acute care facility, opened in Washington County.

Hospital Ownership and Certification

Ninety-five hospitals in Mississippi are classified as medical/surgical. These figures were based on the type of service that the hospitals provided to the majority of admissions. Data from the ten long-term care hospitals are included with the 95 acute care

hospitals plus the one OB/Gyn facility. The other acute care facility, Whitfield Med/Surg is not included in the acute care statistics. The six counties in Mississippi that do not have a hospital are Amite, Benton, Carroll, Issaquena, Itawamba, and Tunica.

Ownership and control of hospitals and beds are shown in Tables I-A through I-D. In 2011 there were 11,487 licensed acute care beds. (This count excludes Whitfield Medical Surgical Hospital and includes Mississippi Hospital for Restorative Care, Promise Specialty Hospital of Vicksburg, Regency Hospital of Hattiesburg, Regency Hospital of Jackson, Regency Hospital of Meridian, Select Specialty Hospital of Gulfport, Select Specialty Hospital Jackson, Specialty Hospital of Meridian and Long Term Acute Hospital of Greenwood.

Seventeen hospitals reported 785 licensed psychiatric beds. Seventy percent of the beds, 571, were located at acute care hospitals. Twelve hospitals reported 327 licensed chemical dependency beds. Thirteen hospitals reported 353 rehabilitation beds. Seventy-nine percent, 273, were located at 12 acute care facilities.

Table II indicates that 53% of the hospitals are accredited by the Joint Commission on Accreditation of Healthcare Organization (JCAHO). Ninety-five percent of the hospitals participate in Blue Cross and 97.4% participate in Medicare, and 95.7% participate in Medicaid. This represents all 115 hospitals.

Hospital Employees

Table III displays hospital personnel. Mississippi's hospitals employed 61,918 people during 2011, of which 82.3% were full-time employees and 17.7% were part-time employees.

Services Utilization

Tables IV - XII show number of procedures by hospital service area for the following categories:

Head and Body CT Scans	Cardiac Catheterization
Diagnostic Radioisotope	Angioplasty
X-Ray	Cardiac Surgeries
Magnetic Resonance Imaging	Renal Extracorporeal Shock
Ultrasound	Wave Lithotripter
Digital Subtraction Angiography	Physical Therapy
Single Photon Emission	Occupational Therapy
Computerized Tomography (SPECT)	Geriatric Patients Served
Linear Accelerator	Respite Patients Served
Radioactive Implants	Inpatient and Outpatient
Therapeutic Radioisotope	Surgeries
Cardiac Catheterization	Outpatient Utilization
	Rural Health Clinics

Sixty-three hospitals reported 102,146 inpatient surgeries and sixty-eight hospitals reported 169,716 outpatient surgeries. This count includes only surgeries performed at acute care hospitals. As Table X shows, the majority of surgeries were performed in Service Area 5.

Table XI presents outpatient emergency visits and clinic/other visits by Hospital Service Area. Service Area 5 reported both the most outpatient emergency visits and clinic/other visits.

Thirty-eight hospitals reported 80 rural health clinics and 833,457 rural health clinic visits. Table XII shows rural health clinics and visits by hospital service area. Two hospitals were unable to provide rural health visits.

Bed Changes

Alliance Health Center in Lauderdale County decreased acute beds from 88 to 78 and increased psychiatric beds from 58 to 68. Tallahatchie General Hospital increased their acute beds from nine to 18.

Name Changes

Three hospitals changed their names during the reporting period. Riley Hospital in Lauderdale County is now Anderson Regional Medical Center South. Leake Memorial Hospital is now Baptist Medical Center Leake and Madison County Medical Center is now Madison River Oaks Medical Center.

There were no hospital closing during the reporting period.

Licensed Beds, Average Length of Stay, Average Daily Census and Occupancy Rate

Table XIII shows hospitals and beds by bed size groupings. Occupancy rates are also shown by bed size. Under acute care the greatest number of hospital beds was reported at hospitals with 25 - 49 beds, 50-99 beds, and 100-199 beds. Of the 17 hospitals reporting psychiatric beds, three were licensed as psychiatric hospitals. Three hundred twenty-seven chemical dependency beds were reported at 12 hospitals. Thirteen hospitals reported 353 rehabilitation beds.

Table XIV-A gives average lengths of stay (ALOS), average daily census (ADC), percentages of occupancy for each hospital by licensed acute care bed capacity and state totals. Psychiatric data can be found in Table XIV-B, chemical dependency data in Table XIV-C, and rehabilitation data in Table XIV-D.

A comparison of licensed beds and beds set up and staffed is shown in Tables XV-A -XV-D. Of the 11,487 licensed acute beds, 10,333 beds were set up and staffed. Seven hundred thirty-four of the

785 licensed psychiatric beds were set up and staffed. Three hundred thirty-four of the 353 licensed chemical dependency beds were set up and staffed.

Swing Beds

Table XVI shows the number of swing beds, average length of stay and average daily census by facility. Table XVII shows the destination of discharged swing bed patients, number referred to home health, and number of acute care beds designated as swing beds by service area. Over two-thirds (68.3%) were discharged to their home, 13% were discharged to nursing homes, 8.7% were admitted to hospitals, and the remaining 8.5% were discharged to other destinations.

Swing bed utilization in 2011 by hospital service area is shown in Table XVIII.

Hospital Use Statistics

Table XIX shows the population of each service area in comparison with its licensed bed capacity. Service areas are maintaining a relatively close correlation between the percentage of population and percentage of licensed hospital beds. Service Area 5, including the city of Jackson and Hinds County, has the largest population at 24.7% and the most beds at 30.2%. Licensed beds by type are also shown by hospital service area.

Table XX-A provides information on acute hospital beds, admissions, discharges, deaths and inpatient days by service area and county. Psychiatric, chemical dependency and rehabilitation beds located in acute care facilities are included in Table XX-B along with those facilities that are licensed as psychiatric, or rehabilitation facilities. There are 11,487 licensed acute care hospital beds in Mississippi, 785 psychiatric beds, 327 chemical dependency beds, and 353 rehabilitation beds.

A comparison of utilization statistics for 2001, 2006 and 2011 is shown in Table XXI. While there wasn't much change in acute care data from 2001 to 2011, most psychiatric and rehabilitation data increased while chemical dependency data decreased.

Table XXII deals with newborn statistics. Once again, Service Area 5 leads in every category, as does Hinds County. Table XXIII compares with the newborn statistics of 2011 with those of 2006 and 2001. There was a -7.2% percent of change in bassinets and a -9.5 percent of change in obstetrical beds set up and staffed. Deliveries saw an 6 percent of change from 2001. The percent of change in fetal deaths was negligible.

Table XXIV displays discharges, discharge days, admissions and inpatient days by service area for DP SNF, geriatric psychiatric, patients 65 and older, Medicare and Medicaid.

Table XXV shows beds set up, discharges, discharge days and inpatient days for the state's hospitals. Data reported by specialty hospitals is also included. Data is broken down into acute care, intensive care, other care, and long-term care. No data was reported for psychiatric intensive care, hospice, psychiatric long term care or mental retardation.

Obstetrical Utilization

2011 obstetrical utilization is shown in Appendix A.

Hospital Listing

Hospitals are listed alphabetically by county in Appendix C. The hospital directory is located in Appendix E. The licensed bed capacity is reported as of January 1, 2011 whereas the rest of the report is as of the end of the reporting period, usually September 30, 2011.

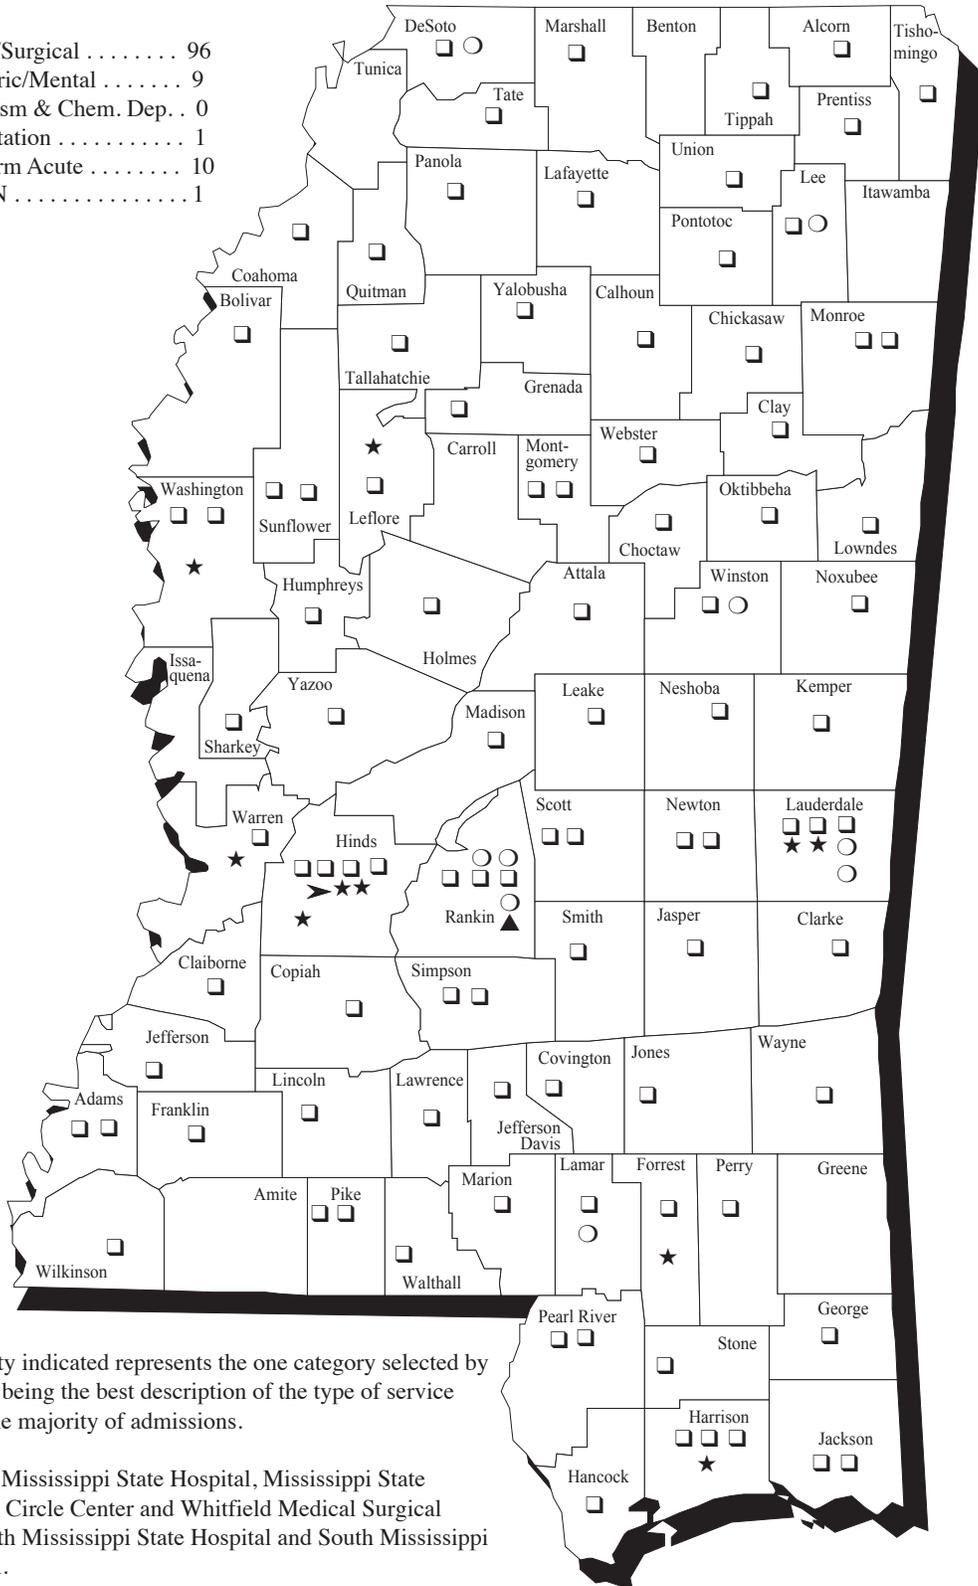

State Owned Facilities

Data relating to state owned facilities may be found in Appendix D. These include East Mississippi State Hospital and Mississippi State Hospital.

Map I

Distribution of Mississippi Hospitals by Type of Facility and County

- Medical/Surgical 96
- Psychiatric/Mental 9
- ◆ Alcoholism & Chem. Dep. . . 0
- Rehabilitation 1
- ★ Long Term Acute 10
- ▲ OB/GYN 1

Note: Type of facility indicated represents the one category selected by the facility as being the best description of the type of service provided to the majority of admissions.

Includes East Mississippi State Hospital, Mississippi State Hospital, Oak Circle Center and Whitfield Medical Surgical Hospital, North Mississippi State Hospital and South Mississippi State Hospital.
