Different Strokes for Different Folks
June 12, 2009 8:00am -4:30pm – University of Southern Mississippi Gulf
Park Campus Auditorium

Speaker’s Bureau Evaluation Form

Mary Helen Conner made comments/suggestions and volunteered to review
and revise the speaker’s evaluation form for the next meeting.

Community Work Group Meeting

Augusta Bilbro reported in the absent of Dr. Evelyn Walker. It was decided to
target the Coast, Tri County Areas and Delta Schools. During the last
Community Work Group Babatunde Fahm joined the meeting to give
information about his program Safe Routes to school and the target
population they meet. He also works closely with 4-H Trainer- University of
Mississippi Extension Service. Babatunde Fahm and the 4-H Trainer make
presentations and disseminate information to students and parents about
safety. This would be a great way to distribute the lay friendly brochure.

Mary Helen Conner will work on brochure to revise it in a more lay friendly
manner.

Partnership Assessment Survey

All HDSP Task Force Members will be sent a partnership assessment survey, along with the letter asking for a representative to be present at the task force meetings.

At Risk Population

The Office of Emergency Planning and Response: At Risk Populations Work Group Establishment. Augusta Bilbro provided a program overview and informed task force members they may receive an invitation from the Office of Emergency Planning and Response to participate in a round table discussion. The task force decided to send two representatives; one from the community work group and one from the provider group. Dr. Hays volunteered to be the representative for the provider group and Dr. Walker or Lorrie Davis representative for the community group.

Announcements

The Heart Disease and Stroke Prevention Project Officer, Capt. Nancy Williams, with the Center of Disease Control and Prevention (CDC), conducted a site visit in Mississippi during the week of April 27, 2009. This was a great opportunity to introduce Nancy to you , our partners and showcase your accomplishments in cardiovascular disease, i.e. the lay friendly plan brochure and the Hospital Stroke Readiness Survey and any others of interest. During the visit Capt. Williams toured the University Medical Center Stroke Unit, the TelEmergency Hub and the Heart Attack Program at St. Dominic Hospital.

Next Meeting

August 14, 2009 @ 11:30am
