Preface

Overview

This publication reflects data collected in the hospital licensure process. A historical accounting of the responsibility for this function began in 1946 when the Mississippi Commission on Hospital Care was legislatively authorized to license non-federal hospitals and prepare an annual report. In 1979 the legislature passed a bill to merge the responsibilities of the Commission on Hospital Care into the Mississippi Health Care Commission and in 1986 another bill was passed to merge the responsibilities into the State Department of Health.

In October 2000, the Division of Health Facilities Licensure and Certification mailed copies of its combined "Annual Hospital Report and Application for Renewal of Hospital Licensure" and the American Hospital Association's "Annual Survey of Hospitals" to all non-federal hospitals in Mississippi. This survey is the source of statistics for this publication. A copy of the survey form is included in Appendix E. The hospital survey forms were reviewed and automated by the Division of Public Health Statistics. Questions regarding reported data were answered by hospital personnel through letters or telephone calls.

In 1982, for planning purposes, the Statewide Health Coordinating Council (SHCC) established seven hospital service areas based on where patients sought hospital care. For ease in using the data presented in this report some tables are presented by the planning service areas. Map II displays the hospital service areas.

This Annual Report is based on 105 hospitals; 96 acute care, 4 psychiatric, 1 rehabilitation, and 4 long-term acute care. The five federal hospitals in Mississippi have been excluded. Additionally, East Mississippi State Hospital, Mississippi State Hospital, Oak Circle Center and Whitfield Medical/Surgical Hospital have been excluded from all data except Map I, Table II and Table III. Map I shows location of hospitals by type of facility, Table II shows accreditations and Table III displays employees.

Hospital Ownership and Certification

As Map I indicates, the overwhelming majority, 100, of hospitals in Mississippi are classified as medical/surgical. There are seven psychiatric/mental hospitals, one rehabilitation hospital, and two long-term acute hospitals. These figures were based on the type of service that the hospitals provided to the majority of admissions. Data from the two long-term care hospitals are included with the 98 acute care hospitals. The other acute care facility, Whitfield Med/Surg is not included in the acute care statistics.

The nine counties in Mississippi that do not have a hospital are Amite, Benton, Carroll, Greene, Issaquena, Itawamba, Smith, Stone and Tunica. The counties having the most hospitals are Hinds, Rankin, Harrison and Lauderdale with six. Sixteen counties have 2 hospitals and fifty-one counties have one hospital.

Ownership and control of hospitals and beds are shown in Tables I-A through I-D. In 2000 there were 100 acute care hospitals (98 acute care plus 2 long term care hospitals) and 11,817 licensed acute care beds. (This count excludes Whitfield Medical Surgical Hospital and includes Restorative Care Hospital at Baptist, Specialty Hospital of Biloxi and Specialty Hospital of Meridian.) Eighteen hospitals reported 672 licensed psychiatric beds. Approximately 74% of the beds, 500, were located at acute care hospitals. Seventeen hospitals reported 419 licensed chemical dependency beds. Approximately 97% (405 beds) were located at acute care facilities. Ten hospitals reported 343 rehabilitation beds. More than half (219) were located at 9 acute care facilities.

Table II indicates that 56.9% of the hospitals are accredited by the Joint Commission on Accreditation of Healthcare Organization (JCAHO). Almost all of the hospitals, 95.4% participate in Blue Cross and 94.5% participate in Medicare, and 94.5% participate in Medicaid.

Hospital Employees

Table III displays hospital personnel. Mississippi's hospitals employed 53,015 people during FY2000, 78.6% of which were full-time employees and 21.4% of which were part-time employees.

Services Utilization

Tables IV - XII show number of procedures by hospital service area for the following categories:

Head and Body CT Scans	Cardiac Catheterization
Diagnostic Radioisotope	Angioplasty
X-Ray	Cardiac Surgeries
Magnetic Resonance Imaging	Renal Extracorporeal Shock
Ultrasound	Wave Lithotripter
Digital Subtraction Angiography	Hemodialysis
Single Photon Emission	Physical Therapy
Computerized Tomography (SPECT)	Occupational Therapy
Cobalt60	Geriatric Patients Served
Linear Accelerator	Respite Patients Served
Radioactive Implants	Inpatient and Outpatient
Therapeutic Radioisotope	Surgeries
X-Ray Radiation Therapy	Outpatient Utilization
Cardiac Catheterization	Rural Health Clinics

Hospital service areas are shown in Map II.

Seventy-five hospitals reported 116,173 inpatient surgeries and seventy-seven hospitals reported 154,378 outpatient surgeries. This count includes only surgeries performed at acute care hospitals. As Table X shows, the majority of surgeries were performed in Service Area 3.

Table XI presents outpatient emergency visits and clinic/other visits by Hospital Service Area. Service Area 3 reported both the most outpatient emergency visits and clinic/other visits.

Twenty-five hospitals reported 60 rural health clinics and 476,242 rural health clinic visits. Table XII shows rural health clinics and visits by hospital service area.

Bed Changes

The following hospitals opened
 Select Specialty Hospital of Gulfport, 38 beds
 South Miss. State Hospital, 50 bed psychiatric hospital

Brentwood Behavioral Hospital (formerly Charter Behavioral Health Systems) decreased from 111 beds to 107 beds. The facility was closed during the reporting period and reopened in December 2000.

The following hospitals changed bed capacity during the reporting period.

Hospital	1999 Beds	2000 Beds
Central Miss. Medical Center	409	473
Choctaw County Medical Center	22	17
Memorial Hospital at Gulfport	395	425
S. E. Lackey Critical Access Hospital	44	25
Specialty Hospital Meridian	40	49
Tallahatchie General Hospital	16	9
University Medical Center	623	665

The following hospitals changed names during the reporting period.

Old Name	New Name
Senatobia Community Hospital	North Oak Reg Med Ctr
Charter Parkwood Behavioral Health System	Parkwood Behavioral Health System
North Miss. Med Ctr Pontotoc	Pontotoc Hospital
S. E. Lackey Memorial Hospital	S. E. Lackey Critical Access Hospital
Biloxi Specialty Hospital	Select Specialty Hospital of Biloxi
Methodist Hospital of Mid Miss.	University Hospital & Clinics Holmes County

Licensed Beds, Average Length of Stay, Average Daily Census and Occupancy Rate

Table XIII shows hospitals and beds by bed size groupings. Occupancy rates are also shown by bed size. Under acute care the greatest number of hospital beds was reported at hospitals with 25 - 49 beds, 50-99 beds, and 100-199 beds. Of the 18 hospitals reporting psychiatric beds, four were licensed as psychiatric hospitals. Four hundred nineteen chemical dependency beds were reported at 17 hospitals. Ten hospitals reported 343 rehabilitation beds. Map III looks at the distribution of 105 Mississippi hospitals by bed size and county.

Table XIV-A gives average lengths of stay (ALOS), average daily census (ADC), percentages of occupancy for each hospital by licensed acute care bed capacity and state totals. Psychiatric data can be found in Table XIV-B, chemical dependency data in Table XIV-C, and rehabilitation data in Table XIV-D. Map IV displays location of psychiatric, chemical dependency and rehabilitation beds.

A comparison of licensed beds and beds set up and staffed is shown in Tables XV-A - XV-D. Of the 11,817 licensed acute beds, 10,854 beds were set up and staffed. Six hundred thirty-seven of the 672 licensed psychiatric beds were set up and staffed. Three hundred sixty-seven of the 419 licensed chemical dependency beds were set up and staffed. And, all but 3 of licensed rehabilitation beds were set up and staffed.

Swing Beds

Table XVI shows the number of swing beds, average length of stay and average daily census by facility. Table XVII shows the destination of discharged swing bed patients, number referred to home health, and number of acute care beds designated as swing beds by service area. More than one-half (62%) were discharged to their home, 14.6% were discharged to nursing homes, 12.1% were admitted to hospitals, 2.4% were admitted to personal care homes, and the remaining 9% were discharged to other destinations.

Swing bed utilization in 2000 by hospital service area is shown in Table XVIII.

Hospital Use Statistics

Table XIX shows the population of each service area in comparison with its licensed bed capacity. Service areas are maintaining a relatively close correlation between the percentage of population and percentage of licensed hospital beds. Service Area 3, including the city of Jackson and Hinds County, has the largest population at 26.1% and the most beds at 29.9%. Licensed beds by type are also shown by hospital service area.

Table XX-A provides information on acute hospital beds, admissions, discharges, deaths and inpatient days by service area and county. Psychiatric, chemical dependency and rehabilitation beds located in acute care facilities are included in Table XX-B along with those facilities that are licensed as psychiatric, or rehabilitation facilities. There are 11,817 licensed acute care hospital beds in Mississippi, 672 psychiatric beds, 419 chemical dependency beds, and 343 rehabilitation beds.

A comparison of utilization statistics for 1990, 1995 and 2000 is shown in Table XXI. While acute care data decreased from 1990 to 2000, most psychiatric, chemical dependency and rehabilitation data increased.

Table XXII deals with newborn statistics. Once again, Service Area 3 leads in every category, as does Hinds County. Table XXIII compares with the newborn statistics of 2000 with those of 1995 and 1990. There was a -1.7% percent of change in bassinets and a 0.6 percent of change in obstetrical beds set up and staffed. Deliveries increased slightly from 1990-2000. The percent of change in fetal deaths was -20.9%.

Table XXIV displays discharges, discharge days, admissions and inpatient days by service area for DP SNF, geriatric psychiatric DP, patients 65 and older, Medicare and Medicaid.

Table XXV-A shows beds set up, discharges, discharge days and inpatient days for the State's acute care hospitals. Psychiatric, chemical dependency and rehabilitation data reported by these hospitals is included. Data reported by specialty hospitals is reported in Table XXV-B. Data is broken down into acute care, intensive care, other care, and long-term care. No data was reported for psychiatric intensive care, hospice, psychiatric long term care or mental retardation.

Obstetrical Utilization

2000 obstetrical utilization is shown in Appendix A.

2000 Hospital Patient Origin Data

Percent of hospital discharges by adjacent county of residence by rank order for combined four quarter patient origin study are shown in Appendix B. Discharges from other counties are grouped together under all others. Patient Origin Study dates used in combined data include October 4 - 17, 1999, January 3 - 16, 2000, April 3 - 16, 2000 and July 3 - 16, 2000. These dates correspond with the majority of hospitals' fiscal year of October 1, 1999 through September 30, 2000.

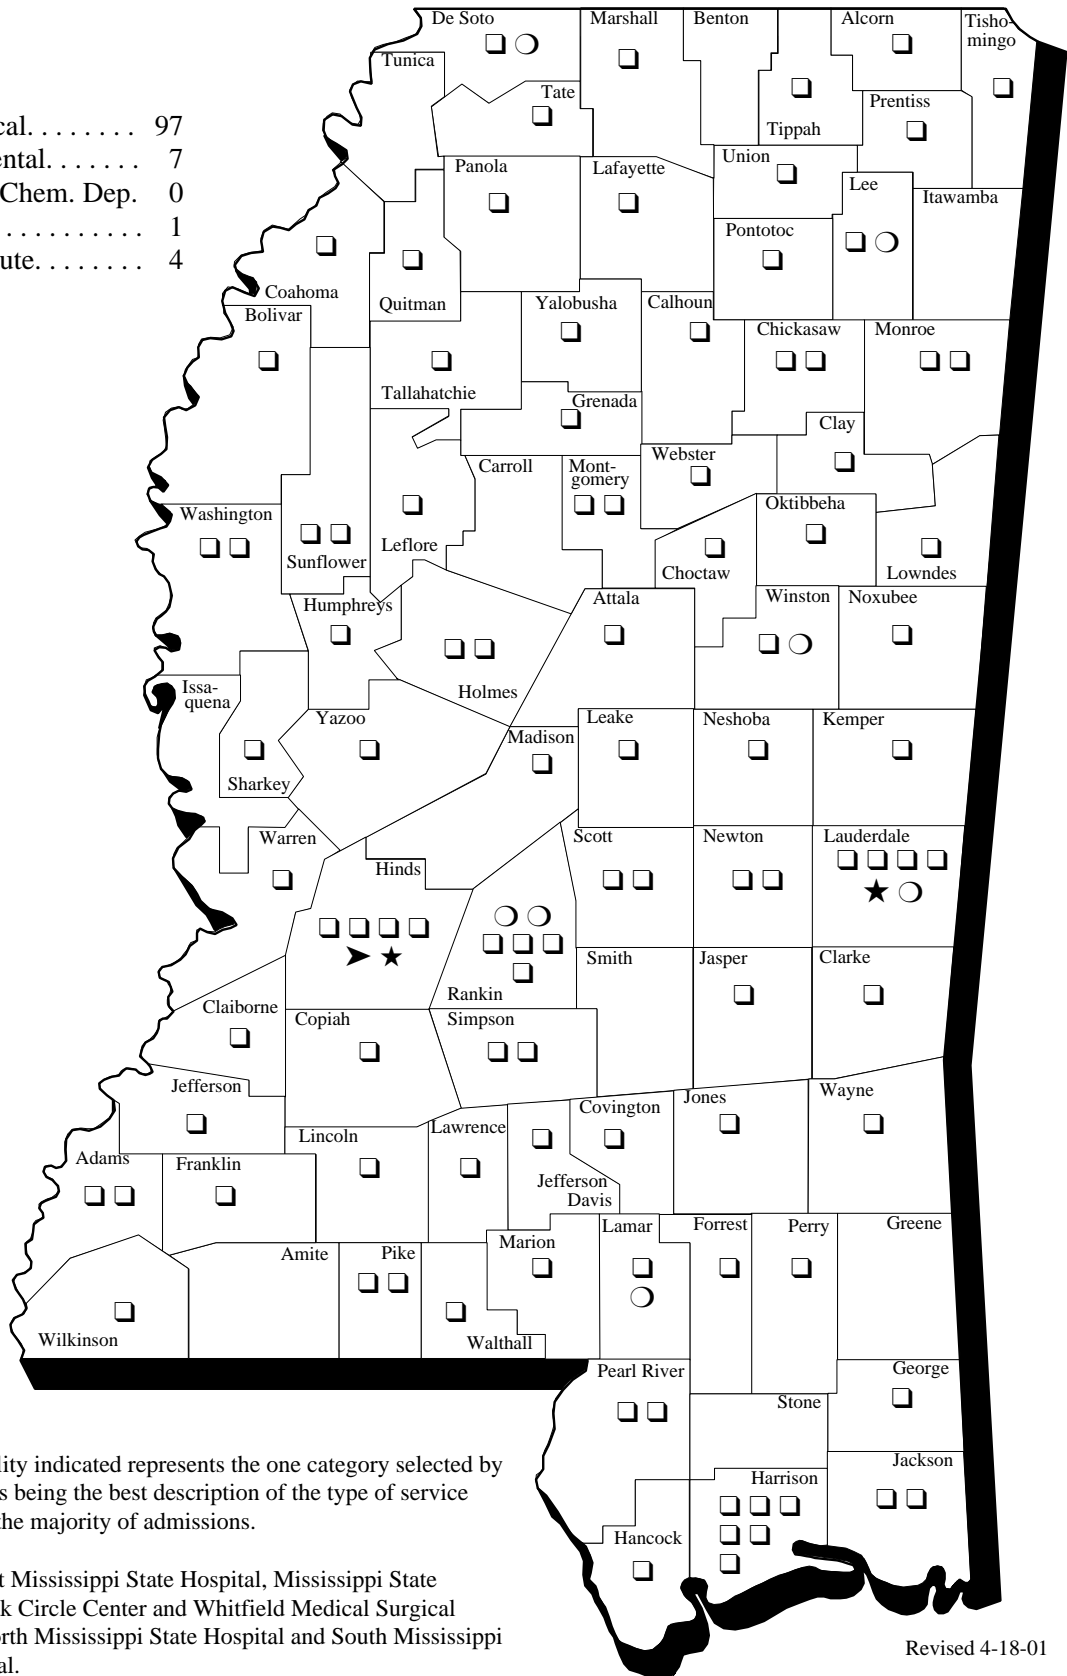

Hospital Listing

Hospitals are listed alphabetically by county in Appendix C. The hospital directory is located in Appendix D. The licensed bed capacity is reported as of January 1, 2000 whereas the rest of the report is as of the end of the reporting period, usually September 30, 2000.

Map I

Distribution of Mississippi Hospitals by Type of Facility and County

- Medical/Surgical. 97
- Psychiatric/Mental. 7
- ◆ Alcoholism & Chem. Dep. 0
- ▶ Rehabilitation. 1
- ★ Long Term Acute. 4

Note: Type of facility indicated represents the one category selected by the facility as being the best description of the type of service provided to the majority of admissions.

Includes East Mississippi State Hospital, Mississippi State Hospital, Oak Circle Center and Whitfield Medical Surgical Hospital, North Mississippi State Hospital and South Mississippi State Hospital.
